Resume
Please attach a resume that describes your helping and/or healing professional work and the study and training you have had that supports it.

Self care

  While many people find their experiences as a "client" in trainings to be personally beneficial and healing, often in surprising ways, it can also be challenging to switch back and forth from engaging with your own stuff and wearing your facilitator's cap. Multiple practice sessions as a "client" during trainings, particularly the longer ones in Basics Part Two, can mean your own issues get triggered.

  If you have a past history of trauma, struggle with mental illness, or have other serious mental, emotional, or physical conditions that may affect your ability to participate in the trainings, please describe them briefly below. Your lead trainer will discuss it with you further by phone.

For some situations, accommodations can be made; with other circumstances, group learning may not be the right option for you.

__I am confident in my ability to care for my emotional and physical well-being and take full responsibility for them.

__I have read the material in the program description regarding courses, post-session coaching and assessments and agree to its requirements.

__I have read the material in the program description regarding costs and refund policies and agree to its requirements.
